

Do you print on runners and napkins?

We do print on runners, please visit our [Logo Printing](#) page to order our Printed Runner product.

This consists of a table runner made in our Spectra® Plain fabric, dimensions 80cm x 280cm, which will be printed with your logo on one end. We normally position the logo about 10" (25cm) from the runner's edge, but we can position it anywhere you like, please instruct us via [email](#) after placing your order.

We do not currently print on napkins for small quantities. However, if you wish to order a large quantity, please [email us](#) . We will advise you of the feasibility and we will produce a quote for you.
