

Can I have a sample of my printed logo before final production?

You can order a print proof from our Printing Services page for £6 plus delivery and VAT. You will then receive your logo printed on a piece of fabric the same colour as what you are planning to purchase (if you have advised us of the colour previously). This will enable you to see what the print looks like on our fabric. Your logo will look exactly the same when printed on the finished tablecloth, and you can instruct us on the exact positioning.
