

Do you stock tablecloths?

As a factory, we only stock fabrics. We have large quantities of fabric rolls, measuring in the thousands of meters.

This enables us to make any size and shape tablecloths according to each customer's requirements.

We always endeavour to keep our website up-to-date with current stock availability. If a certain fabric or colour goes out of stock, we always try to update our website as quickly as possible so this particular colour does not show in the colour list until it comes back in stock.

In the unlikely event that you place an order and your chosen fabric/colour has just gone out of stock, we will contact you promptly and offer you a choice of replacement designs/colours, waiting for your chosen fabric/colour to come back in stock, or a full refund if your order has not been processed yet.
