

The TableShield's edges are covered with binding tape to give a finished and elegant look.

We always endeavour to match the binding tape colour to the TableShield shade as much as possible, but this is not always feasible, so in most cases, **the binding tape may be of a slightly different hue or shade than the TableShield itself**

If you have any doubts, feel free to contact us by phone or [email](#) before you place your order and we can let you know what colour binding tape can be used on your choice of TableShield colour.
