

The TableShield is a roughly 4mm thick table protector. It is made with polyester felt on the bottom and a leatherette top. It is edged with binding tape of a similar shade to its leatherette top. The TableShield is meant to be placed on the table without any tablecloth on it, and it will protect the table top from marks, scratches as well as hot dishes, spills and stains. It can be rolled away and easily stored.

The Table Guardian is a thinner (
